STONHARD SOLUTIONS
AUTOMOTIVE DEALERSHIPS

The Right System For The Right Environment

Think of a facility and then consider the myriad of environments within that facility. Imagine the flooring possibilities. Then add a selection of colours, textures, patterns and designs. After all, they are ultimately part of the end result. Our Territory Managers and Architectural Specialists will assist you in identifying the ideal system for each setting. We analyze the needs of your facility and offer the right systems for each location. Facts, details and comprehensive design elements are an integral part of this success.

Chemical abrasion and slip resistance, ergonomics, static control, sound reduction, anti-corrosion - **floors for every environment.**

Typical System Recommendations Include: [Stonclad GS](#), [Stonkote GS4](#)

Stonclad GS

Stonclad is a family of seamless, high-performance, epoxy floor systems that offers outstanding impact and abrasion resistant qualities, in addition to excellent chemical resistance.

Stonclad GS is a three-component, troweled, epoxy mortar system which is formulated as a general service epoxy flooring solution for a wide range of applications. It is specifically designed for surfacing and patching industrial floors exposed to corrosive spillages and abrasive, wheeled traffic. Stonclad GS cures to an extremely hard mortar that exhibits outstanding abrasion and wear properties.

Stonkote GS4

Stonkote GS4 is a two-component, 100% solids, general service, epoxy coating. It is formulated to increase abrasion and chemical resistance while improving cleanability. This coating system hardens to an attractive gloss finish.

Stonkote GS4 is specifically designed for use whenever a high solids, corrosion resistant, gloss coating is required.

Stontec EFC

Stontec EFC

Stonshield HRI

Customer Lounge | Reception | Retail Space | Offices | Washrooms

Typical System Recommendations Include: Stontec EFC, Stonshield HRI

Stontec EFC

Stontec offers a dense, stain resistant flake flooring system with an extensive range of finishes and colour options. Stontec floors minimize downtime for renovations and save critical path time on new construction projects.

Stontec EFC is a 100% solids, epoxy resin-based decorative flake system. Perfect as a cost-effective, aesthetically pleasing solution for light traffic areas, and is designed for use over new smooth concrete.

Stonshield HRI

Safe, easy to clean, with aesthetic appeal, Stonshield ultra-slip resistant floors ensure protection from slip and falls.

Stonshield HRI is a troweled epoxy mortar-based, textured, long-lasting system that is perfect for retail, office and washroom spaces. This seamless decorative system is an exceptional alternative to quarry tile or ceramic.

StonWalk

StonWalk

StonWalk

Exterior Walkways

Typical System Recommendations Include: StonWalk

StonWalk

StonWalk is an ideal solution for creating exterior surfaces that are seamless, anti-slip, chemically resistant, visually appealing and “natural” looking.

Our stone blends are natural uncoated aggregates, quarried in Canada and provide surfaces that are cost-effective, beautiful, practical and in harmony with the colours and hues of nature.

StonWalk systems allow for the repair of surfaces that would otherwise be broken out and replaced, further reducing waste, landfill and of course, noise pollution.

StonWalk Colour Options

Arrowstone

Sandbars

Opines Hill

Limestone Island

Blackwater

Coral Rapids

Marble Canyon

Moonstone Lake

Expect performance from start to finish. From design specifications, to project management, to the final walk through, Stonhard works with you to ensure complete satisfaction on every project.

A **turnkey approach** means you'll receive high quality products and installations consistently. From people, to products and services, quality and dependability are a constant with Stonhard.

The **single source warranty** is Stonhard's pledge of responsibility. Our Territory Managers and Field Engineers are dedicated to your satisfaction. Site supervision and service are standard across the country and around the world.

STONHARD single source

Each Stonhard project receives attention on every level — multi-phase or small projects, from start to finish. Our Territory Managers, Project Managers, and over 65 application teams, are your single source partners assuring quality control and integrated and flexible scheduling.
